

## **Mini Crawlers**

Used Mini Crawler New Hampshire - We have designed various programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who needs re-certification or certification, and for inexperienced operator who is looking for a job in the industry. Crane operator positions are high because of their high rates of pay. Crane operators are among the highest paid of whichever heavy machine operator. Our Crane Operator training provides instruction for different mobile cranes. Course content includes Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling. The program is most suitable for crane operators, riggers and their supervisors. The materials incorporated in the course would include a manual and numerous informative handouts. The illustrated safety manual consists of 100 to 250 pages, that depends on the course, of useful and important material. Course materials include load charts and load chart exercises for the crane with which the trainee is working. Over half of the course includes Hands-On Safety Training. Practical training is effective for increasing and developing personnel skills levels. Just qualified journeyman crane instructors are selected to teach the courses. Our instructors have many years of business experience. Optional testing mechanisms are provided for all of our courses. Students would normally write tests both prior to and following training. A test for skills is normally administered for programs which consist of H.O.S.T. Trainees would be tested and graded. We offer certified training programs for the following cranes: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Training and Certification; Certification & Testing; and In-The-Seat Training. Industry standards of practice are changing as new industry requirements surface. There are continual updates to regulations and legislation. Improvements in equipment and technology continue to be made. Industry data analysis and collection identify trends that are changing. Members maintain the advantage of managing their certifications and training programs. Mobile device alerts keep members abreast of workplace and personal safety news.
